Secretary Gage to-day announced that he had decided to comply with the regularments of Section 21 of the pendang ratiff bit providing for the tention of samples of merchandise imported under orders given subsequent to April 1, and which were not purchased and directed by the owner to be chipped for import into the United States prior to April 1. This action, however, will be taken under Section 249 of the Revised Statutes, which authorizes the Secretary to exercise superimendence over the collection of customs duties it is the opinion of Secretary Gage and Assistant Secretary Howell that no insurmountable difficulties will be encountered in the administration of this feature of the Tarriff bill. There can be no diffficulty, it is said, as to articles which are to pay a specific duty, and as the whole Tariff bill was framed with a general view to specific rather than ad valorem duties, a large proportion of the dutable articles will be disposed of without the necessity of retaining samples. In some special cases when the retention of samples would obviously work hardship to the importer, such as a large and miscellaneous invoke of furniture, it is thought that this requirement may be waived on a clear stipulation as to character and talue. The new regulations probabily will be promulgated to-morrow.

THE PRESIDENT IN NEED OF REST.

HE MAY TAKE A SHORT TRUP ON THE DOLPHIN NEXT WEEK.

Washington April 2.-President McKinley has in contemplation a brief vacation from his official duties. The month in the White House has been a trying one, and, while not in any way indisposed, he feels that a few days' rest will greatly benefit him. Nothing has been determined yet, but it is probable that he will avail himself of the presence here of the dispatch-boat Dolphin and go down the Potomac River for a couple of days about the middle of next week. He prefers this means of diversion rather than going to a public

THE NEW FOREST RESERVES. MR. CLEVELAND'S ORDER LIKELY TO BE

THE QUESTION DISCUSSED AT THE CABINET MEETING-PORESTRY COMMISSIONERS CALLED

MODIFIED.

TO WASHINGTON. Washington, April 2.-All the members of the Cabinet were present at the meeting to-day. Secre-tary Sherman, who was unable to attend just Tuesday on account of illness, was present. The only matter of public importance discussed was the question of rescinding the order of Mr. Cleveland setting apart thirteen forest reservations This question has engaged the attention of Secretary Bliss for some time. The Secretary to-day took to the White House the

maps and papers relating to the matter. The discussion was vigorous at times, and all the members took part. The outcome was in-structions that the National Forestry Commissioners be summoned to Washington to talk over their work with the President. It is understood that there was a unanimous sentiment that President Cleveland's proclamation was too comprehensive. It was said that the object of the Commission which investigated the subject Red upon whose report the reservations were proclaimed was to take in enough territory to preclude any possible future claim that any land legitimesely deserving or requiring reservation had been emitted. The Cabinet held that the Commission's investigation was inadequate. The President nounced his purpose to act on conservative lines and not without more information.

Secretary Bliss led the discussion and submitted otes of the contentions of Western Senators who protested against the order. The amendment to egislation now pending authorizing a survey of

protested against the order. The amendment legislation now pending authorizing a survey of the tracts thus set apart and appropriating money for the work was carefully reviewed, and it was decided that no action should be taken pending such a survey of the reserved country. The general opinion was that the amendment would be made a law early next week, and it was determined that the surveying work should be begun immediately, and the reports of the survey expedited to the end that any defects should be premptly remedied.

As at present determined, the forestry proclamation will not be revoked in toto, but its provisions will be adjusted by Presidential orders as to specific tracts. The Black Hills Reservation in South Dakota in all prebability will be part of the lands which will be subjected to the first survey. When the work there is completed the President will exempt from the provisions of the proclamation such lands as are of a mining or agricultural character, or where the settlers' rights are included that the survey will be transferred to other tracts, and the exemptions proclamed separately as the work proceeds. The Forestry Commission is expected to come to Washington some time next week to talk over the matter with the President and members of the Cabinet.

AN AMBASSADOR FOR TURKEY

THE PRESIDENT DESIRES TO RAISE THE RANK OF THE MISSION.

MINISTER TERRELL DIRECTED TO MAKE THE SUG

BY TELEGRAPH TO THE TELEUNE. Washington, April 2. If Turkey accedes to the suggestion of this country, the Turkish Mission will be raised in rank to an Embassy. Minister United States the Previlent will accredit diplomat of equal rank. This information has to take the initiative in suggest to that country that it follow a similar course. The foreign country must not first. In the ease of England Sir Julian Pauncefore, formerly Minister and Envoy Extraordinary, was appointed Ambussador. When his credentials in the higher grade were accepted by President Cleveland Mr. sador to the Court of St. James. Then followed the action of Italy, France and Germany, and promptly afterward the diplomatic representatives you." vated from the grade of Minister to that of Am-

bassador. President's reasons have not been telegraphed to Mr. Terrell, nor have they been given to the public. Turkey. The United States and Turkey have no serious controversies as to territory, the control of the Dardanelles and the other problems in which European Powers are gravely concerned; but there are under consideration between the two Governments such important questions as the dignity of tection of American missionaries in their labors in Turkey, the rights of naturalized Americans returning to Turkey, and the payment of indemnity to Americans who have suffered loss of property through Turkish lawlessness. With the possible exception of Spain, diplomatic relations with no European country demand at this time more deli-McKinley is anxious that a most capable man should be sent to Constantinople, and among the available persons he seems to regard ex-Secretary Foster as the best qualified. It would not be considered dignified to accredit an ex-Secretary to a diplomatic

dignified to accredit an ex-Secretary to a diplomatic post of lower rank than that of Ambassador. In fact, General Foster would not accept an appointment as Minister.

Naturally there is much speculation as to what the Shihan will do. It is hoped at the State Department that he will raise the rank of his present Minister. The Minister, it is understood, is favorable to the proposition. But complections would arise. For one thing, the Turkish Government would be put to increased expense. It would have to maintain a larger force at Washington, and would be put to unusual expenditures under other heads. Besides, if the Suitan accredits an Ambassador to Washington, he must expect to grant to this country's representative the right to see him personally when diplomatic questions arise. So far no word has been received from Minister Terrell, even as to the probabilities of the Suitan's decision. It is thought at the State Department that the complications with Gresce are keeping in the background just now all other subjects at Constantinople. Still, courtesy demands that the suggestion of the new Administration should receive early consideration, and a reply from Mr. Terrell will be likely to reach the State Department in a few days.

WHY GREECE HAS NO MINISTER HERE. niration for that plucky little kingdom recalls the fact that Greece has not been represented at Washthe Diplomatic Corps included a Minister from Greece, who hore a curious name, and wore a far more curious dress. It was not only his court dress on official occasions, but his everyday dress, try, and the representative of the Greek Government attracted more attention than the Chinese or Coreans, who at first were followed and gazed at whenever they appeared in the streets. The Greek diplomat was keenly sensitive, and to be fellowed, looked at and commented on was an indignity to which he could not submit. In less than a year from the day he presented his credentials to the Fresident, the Minister turned his back on the New World and sailed for home. The Alfonso XIII Battalion, at a ford across the Hanabana River, on the borders of Santa Clara, near Guaracabuya, has been engaged with a force of 20 insurrents, who were trying to cross the river into the Province of Matarzas. The enemy occupied good positions, where they awaited the advance of the troops. In the fight which followed the insurgents were defeated with the loss of many men.

There is a great scarelty of water at Santiago de Cuha, and the authorities there have been compelled to reduce the water rations of the prisoners and sick persons, in the full and in the hospitals. SPANISH SUCCESS IN THE PACIFIC ENGAGEMENTS WIRCH ARE SAID TO MARK THE END OF THE PHILIPPINE EMBELLION.

Washington, April 2.-The Spanish Legation has of Novelleta, Lachau and Rosario were stormed the Spanish fleet shelled the scaport town of Cavite Vieso and other strategic places leaning to the heavy, and 1,630 prisoners surrendered as a result of the shelling of Cavite Viego. The fleet engaged in the latter operation included the cruisers Reina Christina, Don Juan d'Austria, Isla de Luzon, Isla de la Cuba and Maria de Molina. With these were a number of gunboats and light-draught ships for manouvring through adjacent swamps. The officials of the Spanish Legation are highly

gratified at the announcement, and say that the results practically close the conflict in the islands, these being the last of a series of severe engagements. General Polavieja's plan of campaign wa held by the insurgents, while the fleet operated along the northern coast, the two Government forces gradually coming together. The fighting on the northern march has been severe, the losses running into the hundreds, in marked contrast with the small engagements in Cuba. The towns of Silery, Dasmarius and Salitran were stormed successively and taken. These with the towns taken resterday constituted, it is said, all the arrong-holde formerly held by the insurgents in the Province of Cavite.
